## Key Benefits:

### The correct balance of required minerals and vitamins.

Provides supplement protein and energy along with balanced levels of all necessary vitamins, mineral and trace minerals to promote general herd health, reproduction, and maintenance.

### The Amaferm<sup>®</sup> advantage.

Amaferm is a natural feed additive that acts as a prebiotic increasing digestibility to maximize the energy value of feed.

### What value does it have in the animal?

Offers the convenience of protein and mineral all in one product when forage quality is poor.

## Caution

Due to copper level do not feed to sheep. Feeding selenium at levels in excess of 0.3 ppm in the total diet is prohibited. Use only as directed.
