SMOOTH DESIGN 16 PELLET*

PRODUCT CODE:  216FOCP

FORM:  Mini Pellet

MEDICATION:  Lincomycin 100g/ton

APPLICATION:  A complete medicated feed for treatment of swine dysentery and the control of porcine proliferative enteropathy (ileitis) caused by *Lawsonia intracellularis*.

FEEDING DIRECTIONS:  Feed continuously as sole ration for 21 days or until signs of disease (water, mucoid or bloody stools) disappear. Provide a good clean environment and plenty of fresh water.

*SEASONAL: AVAILABLE MARCH—SEPTEMBER

FEATURES AND BENEFITS:
- Moderate protein and higher energy levels support a softer, more massive appearance by allowing pigs to continue developing muscle shape while putting on optimal finish.
- Higher in fat to achieve that needed smoothness and natural shape on harder muscled pigs.
- Milk and egg proteins to condition skin and keep pigs at twelve o’ clock.
- Pelleted for reduced sorting and improved carbohydrate digestibility.
- Numerous fiber sources to provide ideal fill and dimension.
- High vitamin levels plus chelated and organic mineral fortification supports immune health and combats stress.

GUARANTEED ANALYSIS:
- Crude Protein (Min.).............................16.0%
- Lysine (Min.)......................................0.90%
- Crude Fat (Min.).................................7.00%
- Crude Fiber (Max.)...............................0.90%
- Calcium (Ca) (Min.)............................1.10%
- Calcium (Ca) (Max.).............................0.85%
- Phosphorus (P) (Min.).........................0.25%
- Salt (NaCl) (Min.)...............................0.75%
- Selenium (Se) (Min.).........................0.3 ppm
- Zinc (Zn)(Min.)................................125 ppm

INGREDIENTS:
Corn, Dehulled Soybean Meal, Cereal Food Fines, Fish Meal, Processed Grain By-Products, Soybean Oil, Soybean Hulls, Animal Fat, Salt, Spray Dried Whole Wheat, Spray Dried Egg White, Dicalcium Phosphate, Monocalcium Phosphate, Calcium Carbonate, L-Lysine, dl-Methionine, Hydrated Sodium Calcium Aluminosilicate, Diatomaceous Earth, Sodium Bentonite, Calcium Propionate, Beta Carotene, Dried *Lactobacillus adiaciphilus* Fermentation Product, Dried *Bifidobacterium thermophilum* Fermentation Product, Dried *Enterococcus faecium* Fermentation Product, Natural and Artificial Flavors, Spray Dried Lignin Sulfonate, Choline Chloride, Potassium Chloride, Potassium Sulfate, Magnesium Sulfate, Vitamin A Supplement, Vitamin E Supplement, Vitamin D Supplement, Niacin Supplement, Vitamin B-12 Supplement, Riboflavin Supplement, Ethoxyquin (a preservative), Menadione Dimethylpyrimidinol Bisulfite (Source of Vitamin K Activity), d-Biotin, Folic Acid, Thiamine Mononitrate, Pyridoxine Hydrochloride, Zinc Sulfate, Ferrous Sulfate, Manganese Sulfate, Copper Sulfate, Ethylenediamine Dihydriodide, Cobalt Sulfate, Zinc Amino Acid Complex, Copper Amino Acid Complex, Manganese Amino Acid Complex, Ascorbic Acid, L-Threonine and Selenium Yeast.

CAUTION:  Occasionally, swine fed Lincomycin may, within the first 2 days after the onset of treatment, develop diarrhea and/or swelling of the anus. On rare occasions, some pigs may show reddening of the skin and irritable behavior. These conditions have been self-correcting within 5-8 days without discontinuing the Lincomycin treatment. The effects of Lincomycin on swine reproductive performance, pregnancy and lactation have not been determined. Not for use in swine intended for breeding when Lincomycin is fed at 20 g/ton of complete feed. Do not allow rabbits, hamsters, guinea pigs, horses, or ruminants access to feeds containing Lincomycin. Ingestion by these species may cause severe gastrointestinal effects.
