## Key Benefits:

### The correct balance of required minerals and vitamins.

Highly fortified levels of vitamins, minerals, maximum allowable levels of selenium, and organic sources of zinc, manganese, and copper. Vitamins include A, D and E along with niacin and B-12 for added growth, bloom and health.

### The Amaferm<sup>®</sup> advantage.

Amaferm is a natural feed additive that acts as a prebiotic increasing digestibility to maximize the energy value of feed.

### What value does it have in the animal?

- Promotes a strong appetite on a daily basis and during high stress times
- Strengthens growth rate and muscle development
- Includes Amaferm, which improves the digestibility of feed, bolsters overall health and reduces digestive upsets
- Enhances eye appeal by promoting freshness and increased hair and skin quality

### Caution

Due to the copper level, do not feed to sheep. Follow label directions. The feeding of supplemental selenium should not exceed 0.3 ppm of total diet. The addition to feed of higher levels of this premix containing selenium is not permitted.
